

Fatal Wave X-Tech

"Sharp turns on the curl"

Program: WAVE PRO

The Fatal Wave Classic is the new Wave Pro Line of Surf Kiteboards developed with the help of Abel Lago, our wave specialist. The line has just been launched on the market, but has already proven to be a great success. Now these two great shapes are available in a new technology of construction Full Sandwich top and bottom. An unmistakable touch of style RRD in a lighter, stiffer and stronger technology of construction.

Features:

Two brand new shapes developed with the help of Abel Lago, our wave specialist, tested throughout the whole wave world tour season. Precise, fast and radical kitesurfboards that combine the latest development in boards designs with a state of the art composite technology in Tiger Wood veneer.

The **Fatal Wave Classic 5'8"** it's a shape developed for smaller waves, the fins are in a back position compared to the **Fatal Wave Classic 6'0"**, which is a board developed to have the top performances in bigger waves, so with an higher board speed.
